

CONTENTS

<i>S.No</i>	<i>Name of the Chapter</i>	<i>Page No.</i>
<i>Chapter -I : Introduction</i>		
1.0	Introduction	1-1
1.1	Port History	1-1
1.2	Port Infrastructure & Operations	1.2
1.3	Purpose of the Project	1-5
1.4	Proposed Project Description	1-5
1.5	Project Location & Site Description	1-6
1.5.1	Site Connectivity	1-9
1.6	Legal Cases	1-10
1.7	Requirement for an Environmental Impact Assessment (EIA)	1-11
1.7.1	Study area for EIA	1-12
1.7.2	Methodology for the study	1-12
1.7.3	Limitations	1-14
1.8	Chapters and Structure of this Report	1-14
1.9	Acknowledgements	1-24
<i>Chapter -2 : Project Description</i>		
2.0	Project Description	2-1
2.1	General	2-1
2.2	Type of the project	2-1
2.3	Proposed Location	2-2
2.4	Details of Existing Berths	2-4
2.4.1	Jawahar Dock	2-4
2.4.2	Dr. Ambedkar Dock	2-4
2.4.3	Bharathi Dock	2-5
2.5	HTL/LTL Demarcation	2-5
2.6	Proposed Activity	2-7
2.6.1	Improvement to the existing Jawahar Dock (East) Berths for handling bulk cargoes – Modernization	2-7
2.6.2	Improvement to the existing Bharathi Dock-II Berth for handling bulk cargoes – Modernization	2-8
2.6.3	Relocation of existing Sand trap and Capital Dredging –Change in location	2-9
2.6.4	Development of Multi Level Car Parking Facility (5000 Cars) - New	2-11
2.6.5	Development of Coastal Terminal (1 MTPA) at the northern sheltering arm at east of Bharathi Dock turning circle - new	2.12
2.6.6	Development of dry facility in the boat basin/ timer pond area -New	2-14
2.6.7	Development of storage Sheds and tank farms as per the Land Use Plan of the Chennai Port	2-14
2.7	Resources	2-17
2.7.1	Area Requirement	2-17
2.7.2	Material Sources	2-17

2.7.3	Water Requirements	2-17
2.7.4	Power Requirement	2-19
2.7.5	Solid & Hazardous waste Generated	2-19
2.7.6	Manpower Requirements	2-20
2.8	Project Cost	2-20
2.9	Project Schedule	2-21
Chapter -3 : Analysis of Alternatives		
3.0	Analysis of alternatives	3-1
3.1	Generals	3-1
3.2	Alternate Sites	3-1
Chapter -4 : Description of the Environment		
4.0	Introduction	4-1
4.1	Study Area	4-2
4.2	Study Period	4-3
4.3	Methodology of EIA Study	4-3
4.3.1	Micro-Meteorological Data	4-5
4.3.2	Tides	
4.3.3	Site Specific Meteorological Data	4-8
4.3.4	Currents	4-9
4.3.5	Geomorphology and Soil Types	4-9
4.3.6	Hydrogeology	4-10
4.3.7	Air Environment	4-13
4.3.8	Noise Environment	4-20
4.3.9	Water Environment	4-25
4.3.10	Seabed Sediments	4-35
4.3.11	Soil Quality	4-39
4.3.12	Land Use Pattern	4-46
4.3.13	Drainage	4-48
4.4.14	Biological Environment	4-49
4.3.15	Greenbelt development plan	4-70
4.3.16	Socio-economic Baseline	4-73
Chapter -5 : Anticipated Environmental Impacts & Mitigation Measures		
5.1	Introduction	5-1
5.2	Impacts of the proposed activities	5-2
5.3	Methodology adopted for assessment for Planned Operations	5-3
5.3.1	Prediction of Impacts	5-3
5.3.2	Impacts & Mitigation of Activity - 1	5-5
5.3.3	Impacts & Mitigation of activity – 2	5-18
5.3.4	Impacts & Mitigation of Activity – 3	5-25
5.3.5	Impacts & Mitigation of Activity – 4	5-43
5.4	Rain water harvesting	5-52
5.5	Pollution Control Measure	5-53
Chapter – 6: Environmental Monitoring Plan		
6.0	Introduction	6-1

6.1	Environmental Monitoring	6-1
6.2	Summary Matrix of Environmental Monitoring	6-1
6.2.1	Meteorology	6-3
6.2.2	Ambient Air Quality	6-3
6.2.3	Water Quality	6-3
6.2.4	Noise Level	6-4
6.2.5	Soil/ Sediment Quality	6-4
6.2.6	Marine Ecology	6-4
6.2.7	Marine Benthic fauna	6-4
Chapter -7 : Additional Studies		
7.0	Concept of Risk Assessment	7-1
7.1	Oil Spill	7-1
7.2	Marine pollution control cell	7-1
7.2.1	List of Oil spill response Equipment's Procured by MoU with oil companies	7-2
7.2.2	Pollution control equipment presently available with Chennai Port	7-3
7.3	Marpol	7-4
7.4	Activities to comply with marpol regulations and DG Guidelines	7-4
7.5	Highlights	7-4
7.6	Contingency Plan	7-5
7.6.1	Risk assessment and Disaster Management plan	7-6
7.6.2	Philosophy behind Risk assessment	7-6
7.6.3	Disaster Management Plan	7-7
7.6.4	Objectives of Disaster Management	7-7
7.7	Onsite emergency Plan	7-10
7.8	Lifesaving appliances and arrangements	7-11
7.9	Occupational health and safety	7-12
7.10	Bathymetry Study	7-13
7.10.1	Bathymetry study at multilevel car Parking	7-14
7.11	Shore line changes	7-16
Chapter -8 : Project Benefits		
8.0	Project Benefits	8-1
8.1	Importance of Proposed Projects	8-1
8.2	Project Benefits	8-1
8.2.1	Improvement in the Physical Infrastructure	8-1
8.3	Improvement in the Social Infrastructure	8-2
8.4	Employment & Other Benefits	8-2
8.4.1	Benefits of Multilevel Car Park	8-2
8.5	Financial Benefits of the Projects	8-3
8.5.1	Social Benefits of the Project	8-3
Chapter -9 : Environmental Management Plan		
9.1	General	9-1
9.1.1	EMP during Construction Phase	9-1
9.2	Air Emissions Management	9-2

9.2.1	Construction Phase	9-2
9.2.2	Operation Phase	9-2
9.2.3	Dust	9-3
9.3	Control of Noise	9-5
9.3.1	Construction Phase	9-5
9.3.2	Operation Phase	9-5
9.4	Water Environment	9-6
9.4.1	Construction Phase	9-6
9.4.2	Operation Phase	9-6
9.4.3	Ship Waste Water Management	9-7
9.5	Waste Management	9-7
9.5.1	Construction Phase	9-7
9.5.2	Operation Phase	9-7
9.5.3	Ship waste Management	9-8
9.6	Dredged materials Management	9-8
9.6.1	Dredged planning activities	9-8
9.6.2	Dredging	9-8
9.7	Hazardous Material and oil Management	9-8
9.7.1	Spill prevention	9-9
9.7.2	Spill control planning	9-9
9.7.3	Goods Handling	9-9
9.8	Summary of critical impacts / issues	9-10
9.9	Identification of implementing Authority	9-10
9.10	Corporate Social Responsibility	9-12
9.10.1	Minister wants ports to allot 10% of income for CSR – YEAR 2013	9-12
9.11	CSR Activities done by Chennai Port Trust	9-12
9.11.1	Chennai Port Trust	9-12
9.11.2	Training in Tailoring	9-13
9.11.3	Ritual Shed	9-13
9.11.4	Environment Management Cell	9-13
Chapter -10 : Conclusions		
10.1	Introduction	10-1
10.2	Proposed Projects	10-1
10.3	Key Recommendations	10-2
10.3.1	Impact during construction Phase and their mitigation	10-2
10.3.2	Impact during project operational phase and their Mitigation	10-2
10.4	Green belt Development	10-3
10.5	Port Area Emergency response plan	10-3
10.6	Environmental Monitoring Programme	10-3
10.7	Conclusions	10-4
Chapter -11 : Disclosure of Consultants Engaged		
11.0	Disclosure of consultants engaged for the EIA study	11-1
11.1	Services offered by SV Enviro	11-1
11.1.1	Environmental	11-1
11.1.2	Analysis	11-1

11.2	EIA Team	11-2
------	----------	------

TABLES

Table No	Description	Page No
<i>Chapter -1 : Introduction</i>		
Table -1.1	Existing Berth Facilities in Chennai Port	1-4
Table – 1.2	List of Infrastructure	1-5
<i>Chapter -2 : Project Description</i>		
Table - 2.1	Details about Project Site	2-2
Table – 2.2	Details of Cargo Handling at Jawahar Dock (East)	2-7
Table -2.3	Details of Cargo Handled at Bharathi Dock	2-8
Table – 2.4	Commodity wise Traffic handled during the last six years (In tones)	2-15
Table – 2.5	Water Requirement during Construction Phase	2-17
Table -2.6	Water Requirement during Operation Phase	2-18
<i>Chapter -4 : Description of Environment</i>		
Table – 4.1	Environmental Attributes & Frequency of Monitoring	4-3
Table - 4.2	Secondary Baseline Data	4-5
Table – 4.3	Indian Meteorological Department-Climatological Tables 1901 to 1980 Station: Chennai	4-7
Table – 4.4	Tidal Level Information	4-8
Table – 4.5	Summary of the Micro-Metrological Site	4-8
Table – 4.6	Yield and depth range of aquifers	4-11
Table -4.7	Techniques and Detectable limits for Ambient Air Quality Monitoring	4-14
Table – 4.8	Location of Ambient Air Quality Monitoring Stations	4-14
Table - 4.9	Summary of Analysis of Ambient Air Quality in the Study Area	4-17
Table – 4.10	Noise Monitoring Location	4-22
Table – 4.11	Lday, Lnight and Ldn compared with CPCB Standards	4-24
Table – 4.12	Standard Operating Procedures (SOP) For Water Sampling	4-27
Table – 4.13	Analytical Techniques For Water Analysis	4-28
Table – 4.14	Surface/Marine Water Sampling Stations	4-29
Table – 4.15	Ground Water Sampling Stations	4-30
Table - 4.16	Ground Water Quality of the Study Area	4-32
Table – 4.17	Surface Water Quality of the Study Area	4-33
Table – 4.18	Analytical Techniques for Seabed Sediments	4-36
Table – 4.19	Sampling Stations	4-37
Table – 4.20	Sea Bed Sediment Texture	4-37
Table – 4.21	Sea Bed Sediment Quality Parameters	4-37
Table – 4.22	Analytical Techniques For Soil Analysis	4-40
Table – 4.23	Details of Soil Sampling Locations	4-40
Table -4.24	Soil analysis results in the study area	4-42
Table – 4.25	Standard Soil Classification	4-45
Table – 4.26	Land use pattern of the study area of CPT	4-48
Table – 4.27	Flora & Fauna Sampling Techniques	4-51

Table – 4.28	Flora recorded in the core area	4-53
Table – 4.29	Floral elements enumerated in the buffer area	4-54
Table – 4.30	List of faunal diversity observed in core and buffer zones	4-57
Table – 4.31	Marine fauna recorded in the study area	4-59
Table – 4.32	Phytoplanktons encountered in the study area	4-60
Table -4.33	List of Zooplanktons reported from the study area	4-61
Table – 4.34	List of macrobenthos recorded in the study area	4-64
Table - 4.35	Microbenthos recorded in the study area	4-66
Table -4.36	Meiobenthos recorded in the study area	4-69
Table -4.37	Selected list of plant species for Greenbelt development	4-71
Table -4.38	Particulars of the population of Chennai District-2011	4-74
Table -4.39	Details of Tamil Nadu fisheries- at a glance -2013-14	4-77
Table -4.40	Industrial scenario of district Chennai-at a glance(2010-11)	4-78
Table -4.41	List of medical facilities in the Chennai- 2010-11	4-81
Table: 4.42	Educational facilities within Chennai Dist-2011	4-84
Table: 4.43	Baseline Health Indicators (2010-11)	4-85
Table: 4.44	Results of the Community Perception Survey	4-87
Chapter – 5 : Anticipated Environmental Impact & Mitigation Measures		
Table – 5.1	Evaluation of project environs	5-2
Table – 5.2	Classification of projects based on activities	5-4
Table - 5.3	Projects in Activity –1	5-5
Table - 5.4	Average Noise Levels generated by the operation of Various construction equipment	5-9
Table – 5.5	Maximum Exposure Periods specified by OSHA	5-10
Table - 5.6	Projects in Activity –2	5-18
Table – 5.7	Estimated Noise levels for the dredging Operations	5-21
Table – 5.8	Projects in Activity –3	5-25
Table- 5.9	Average Noise Levels generated by the operation of Various construction equipment	5-29
Table – 5.10	Maximum Exposure Periods specified by OSHA	5-30
Table – 5.11	Estimated Noise levels for the dredging Operations	5-36
Table – 5.12	Projects in Activity -4	5-43
Table – 5.13	Solid Waste Details	5-48
Table – 5.14	Summary of Anticipated Social Impact Assessment & Mitigation Measures	5-50
Chapter -6 : Environmental Monitoring Programme		
Table – 6.1	Monitoring Schedule – Construction Phase	6-1
Table – 6.2	Monitoring Schedule – Operation Phase	6-2
Chapter -7: Additional Studies		
Table – 7.1	Risk Level and Mitigation measures for during Operations	7-7
Chapter -9 : Environmental Management Plan		
Table – 9.1	EMP for Construction Phase	9-7
Table – 9.2	EMP for Operation Phase	9-12
Table – 9.3	Management practices for conservation	9-15
Table – 9.4	Mangrove species to be planted at different stages in Krishna	9-17

	Estuary	
Chapter -11 : Disclosure of Consultants		
Table – 11.1	List of Experts involved	11-2

FIGURES

<i>Figure No</i>	<i>Description</i>	<i>Page No</i>

ANNEXURES

<i>S.No</i>	<i>Description</i>
Annexure -1	Terms of Reference
Annexure -2	Pre & Post 1994 Port Activities
Annexure -3	Existing CFE & CFO
Annexure -4	CRZ Map
Annexure -5	Port Layout
Annexure – 6	National Park
Annexure -7	Disaster Management Plan
Annexure – 8	Green Belt Existing & Proposed
Annexure – 9	CWPRS Report
